PERSONAL STATEMENT

I am a Penultimate-year Software Engineering student at the University of Auckland, with a passion for innovation, problem-solving, and making an impact. I am an understanding person with good communication skills, particularly in team environments. Software engineering is an ever-evolving industry, and I am excited to learn the ropes and be part of a field where continuous learning and adaptation are key to success.

PROJECTS

Auckland Program for Space Systems (APSS)

2024 - Present

- **APSS-2**

- **Firmware Testing and Validation (C++)**

Wrote test plans and automated test scripts to validate firmware on payload hardware (Tether subsystem), ensuring everything worked in accordance to the mission requirements.

- **PSAT (Pico-Satellite)**

2025 - 2026

- **Team Leadership, Research and Testing**

Led a team of 6, organising meetings and delegating workload across research and testing workstreams. I conducted materials and thermal analysis, and led the thermal system testing for our payload.

Portfolio Website

2026

- **React, HTML/CSS**

- Designed and built a personal portfolio site from scratch, which showcases my projects and technical skills. I've deployed this via Netlify: [navini-ariyasinghe](https://navini-ariyasinghe.netlify.app/)

ECSE Design Competition - ECSquare

2026

- **HTML/CSS**

- Designed and developed a Piano Tiles style game, with a team over a 4-week competition, focusing on the audio implementation and the overall UI.
Winner, Student's Choice Award.

WDCC x SESA Hackathon - Snoot

2026

- **Kotlin-Java + Android Studio**

- Built an android app that gamifies reduced screen time by pairing productivity habits with a virtual pet, over a 2-day hackathon. Led UI design and development, and integrated the core app features.
Winner, Best Design Award.

SOFTENG 206

2025

- **JAVAFX**

- Led development of a core character, including click-triggered comic-style scene transitions with custom sliding animations, within a JavaFX-based trial simulation application.
 - Collaborated within a team of 3 to translate client requirements into functional features across the application.

WORK EXPERIENCE

Ethan Global

2025 - 2026

- **Summer Intern**
 - Migrated a legacy application from Visual Basic to Python, working closely with clients to align the rebuild with updated business requirements.
 - Built an automated Employee Feedback Form workflow using Microsoft Power Automate, streamlining data collection and submission routing.

Whitcoulls

2022 - Present

- **Retail Sales-Person**
 - Communicated effectively with customers to address questions and concerns, and recommend products suited to their needs.
 - Collaborated with coworkers in a fast-paced environment, sharing product knowledge and supporting the team to resolve customer issues efficiently.

LEADERSHIP & VOLUNTEERING EXPERIENCE

Auckland Programme of Space Systems

2025 - 2026

- **PSAT (Pico Satellite) Team Mentor**

Assisting the team in answering inquiries and offering guidance, leading the team to a successful launch.

Women in Engineering Network Engenuity Day

2025

- **Group Lead**

I took part in the annual Engenuity day, where I led a group of students to their workshops and inspired them about life in Engineering at the University of Auckland.

Robogals (UOA)

2024

- **Volunteer**

Participated in a workshop that introduced Sphero-bots to primary-aged children and taught them the concepts of speed.

Botany Downs Secondary College (BDSC)

2023

- **Koru Whanau Lead Student**

Leader of Koru Whanau Service Committee, Camp Lead, hosted weekly Whanau Assemblies.
- **Head Student Librarian**

Leader of Library Displays Team, organised and managed teams, as well as assisted teams with ideas and inspiration on displays for the library.

EDUCATION

University of Auckland

Bachelor of Engineering (Honours) – Software Engineering

2024 - Present
